

Median Waiting Week To First Appointments By Referral Month (GP Routine Referrals)

This report is designed to provide an indicative time to first appointments for GP routine referrals received in the referenced months by speciality. The table shows only referrals with booked appointments and excludes urgent and two week wait referrals. Note that the median waiting weeks are based on booked appointments that may be subsequently cancelled, DNAed or rescheduled.

Summary Table

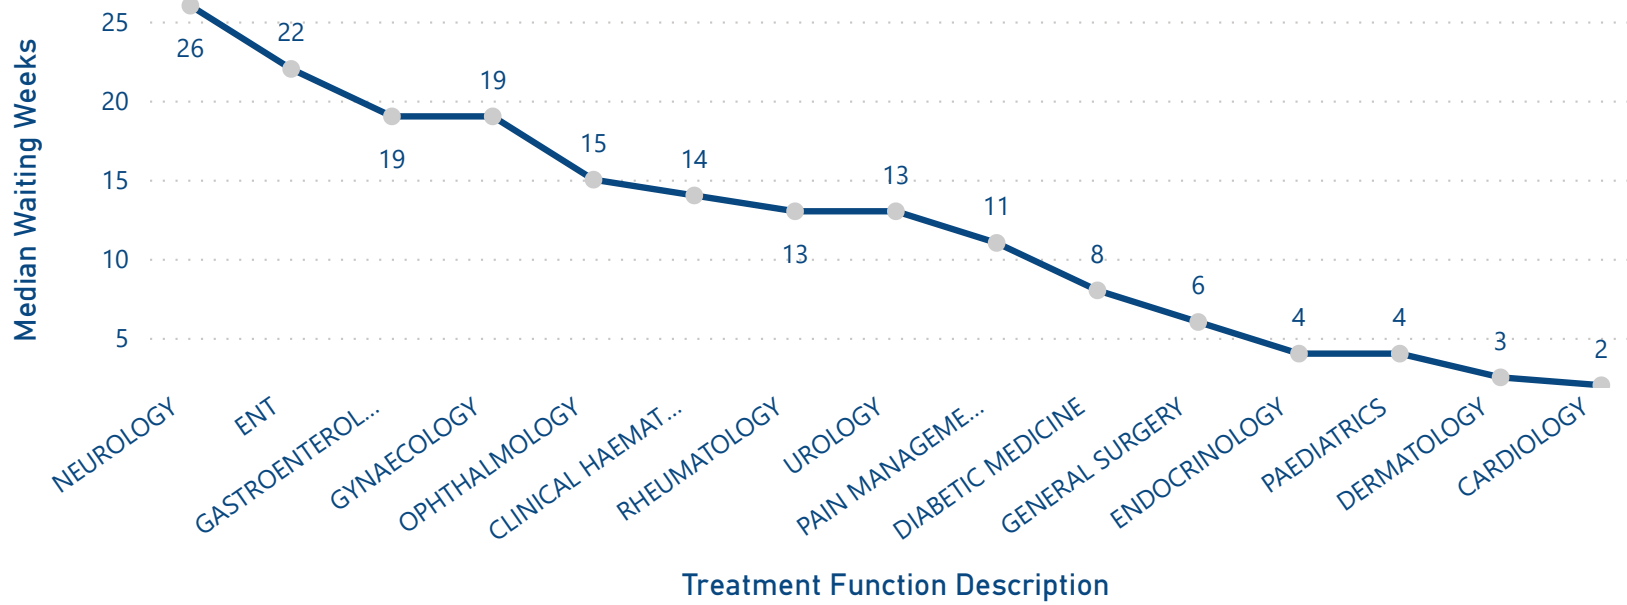

2021	May	June	July	August	September	October	November	December
	12	13	14	14	14	13	13	13

Year	2021
